OBJECTIVE

To be in a growth-oriented and challenging Field where I can both contribute my full potential and improve my existing skills through continuous learning.

EDUCATION

Vivekananda College of Engineering for Women	2025 * Pursuing
BE Computer Science and Engineering	current CGPA:8.7
Holy Angel's Matric Higher Secondary School	2021
(Physics, Chemistry, Maths, Computer Science) Group	Percentage:91.8%
Holy Angel's Matric Higher Secondary School	2019
SSLC	Percentage:89%

MINI PROJECT(s)

Mobile App Add-to-Cart with PWA

Developed a user-friendly mobile app add-to-cart feature using HTML, CSS, and JavaScript. Utilized Netlify and Firebase for hosting and real-time functionality, and implemented PWA (Progressive Web App) features for enhanced user engagement. Shared the app with family members to gather user feedback and incorporate real-world usage insights.

Key Achievements: - Created a mobile app add-to-cart feature focusing on user experience and ease of use.

- Utilized PWA features to improve the app's performance and user engagement.
- Hosted the app on Netlify and leveraged Firebase for real-time data management.
- Gathered feedback by sharing the app with family members, demonstrating real-world application usability.

Student registration system

I have designed and implemented a comprehensive student registration system using PHP CRUD operations and MySQL as the database. This involved creating a robust back-end logic to perform Create, Read, Update, and Delete operations on student details and ensuring seamless integration with the MySQL database. This experience has honed my skills in database management, PHP programming, and web application development

Languages: C, Java, Python, SQL, HTML, CSS, JavaScript

Tools: GitHub

SOFT SKILLS

- Time management
- Effective Communication

CERTIFICATIONS

- Core Java certification in Internshala
- Certificate for the Completion of Python in Code Chef
- Python Programming-Hacker Rank

AWARDS AND ACHIVEMENTS

- 2024 **THIRD PRIZE** in "CHATTER CHAMPIONS" (Youth talk contest)
- 2023 **SECOND PRIZE** in "TECHNICAL QUIZ" Techno palette 23

INTERNSHIP: During my one-month internship at InternPe, I gained practical experience in web development, including working on front-end and back-end tasks and collaborating with a team to deliver web solutions.
